May 3

Mr. D. H. Richards
Director of Admissions
University of New Hampshire
Durham, New Hampshire

Dear Mr. Richards:

The facts set forth in your letter of April 27, 1954 indicate that the parents of the applicant are domiciled in England. This is so even with respect to the mother who, although here currently under a permanent visa, intends at a rather certain date in the future to return to England.

It is well settled that a minor not emancipated takes and retains the domicile of his parents. Under the government of this rule, it may be found that the applicant is not domiciled in New Hampshire.

Very truly yours,

Warren E. Waters
Deputy Attorney General
